

24-month target: \$720k+ annual revenue

# Business Model Canvas

AN ALL-IN-ONE PLATFORM FOR MODERN FAMILY LIFE

FamilyHub is an all-in-one family platform helping modern households build stronger routines, healthier digital habits, and long-term financial resilience.

## 02 - Value Propositions

- **Family admin:** calendars, meals, announcements, assignments, journal.
- **Beneficial screen time:** Maths, World Flags, Logic. Kids earn by learning.
- **Sticker economy:** **earn · save · invest · spend**. **Financial literacy from early childhood**, baked into family life.
- **Cultural flexibility:** optional traditions and journals, flexible calendars, extended-family roles. Works for any culture, or none.

| COMPETITOR            | ADMIN | EDU | \$\$ | CUL. |
|-----------------------|-------|-----|------|------|
| Cozi, FamilyWall      | ●     | ·   | ·    | ·    |
| Khan, Prodigy         | ·     | ●   | ●    | ·    |
| GoHenry, RoosterMoney | ●     | ·   | ●    | ·    |
| Culture-focused apps  | ·     | ·   | ·    | ●    |
| <b>FamilyHub</b>      | ●     | ●   | ●    | ●    |

AI moat. Per-child placement data compounds; competitor switching incurs cold-start regression.

## 03 - Channels

- **Search and content** (e.g. “family planner app”, “homeschool app”, “chore rewards app”); **Product Hunt** launch
- **Paid social campaigns** on Meta and TikTok, focused on UAE / Saudi / UK
- **Community partnerships** (schools, co-ops, community groups)
- **Mobile distribution:** web app today, native iOS and Android upcoming; **direct enterprise sales** beyond 100 paid families
- **In-app referrals:** invite-a-family, both households receive a free month
- **Branded partner portals** double as consumer surfaces

## 01 - Customer Segments

- **Core consumer:** tech-comfortable parents with 2+ children, currently juggling multiple apps
  - **Underserved consumer:** multicultural, multi-generational, blended, and large households
  - **Organisations (branded deployments):** schools, homeschool co-ops, clubs, NGOs, government-affiliated family programmes (20 to 500+ families)
- Launch geography.** 1. UAE / Saudi Arabia. 2. US / Canada / UK. 3. Indonesia / Pakistan.

## 04 - Customer Relationships

- **Self-serve onboarding:** under 5 minutes
- **Lifecycle email programme:** welcome, day-3 prompt, day-14 progress recap, monthly streak report
- **Retention loops:** sticker streaks, weekly meal prompts, child learning progress
- **Enterprise customer success:** hands-on until our first five paid organisations
- **Product-led growth:** in-app behavioural cues convert free families to paid

# How we build it

## SUPPLY SIDE: PARTNERS, ACTIVITIES, AND RESOURCES BEHIND THE PRODUCT

### 08 · Key Partners

#### ACTIVE

- **Identity and secure database** (Supabase)
- **Payments and subscription billing** (Stripe)
- **Cloud hosting** (Railway)
- **AI personalisation engines** (OpenAI, Anthropic)
- **Reliability and product analytics** (Sentry, PostHog)

#### POTENTIAL

- **UAE government partners:** Early Childhood Authority, ADEK, Department of Community Development (Abu Dhabi), Family Development Foundation
- **Standard Chartered Foundation:** non-dilutive capital and ecosystem
- **Schools, homeschool co-ops and community groups:** community distribution partners
- **Apple and Google app stores:** native mobile distribution

### 07 · Key Activities

- Product development on a 2-week release cadence
- Educational content and curriculum (Maths, Logic, World Flags)
- Family acquisition through search, paid social, and community partners
- Customer support and family success programmes
- Operating the per-child personalisation engine
- Partnership development (schools, co-ops, community groups)
- Finance, tax, and accounting operations

### 06 · Key Resources

- **Secure cloud platform**, built and operating today
- **Per-child learning data**, our competitive moat
- Proprietary curriculum content
- Brand and design system
- Founder team, AI-augmented
- 12-month operating runway

09 • Cost Structure

| LINE                    | TYPE     | NOTES                                                                |
|-------------------------|----------|----------------------------------------------------------------------|
| Cloud hosting           | Variable | ~\$20/mo today, scales linearly with paid families                   |
| Identity and database   | Variable | Free tier today, paid tier at scale                                  |
| Payment processing fees | Variable | 2.9% + 30¢, built into pricing                                       |
| AI personalisation      | Variable | Target < \$0.50 per child per month                                  |
| Payroll                 | Fixed    | Founder team, plus first hire at 100 paid families                   |
| Marketing               | Variable | Cost to acquire a family stays under 6× monthly subscription revenue |
| Compliance and legal    | Fixed    | EU, US, and UK child-data regulations                                |
| Domain and certificates | Fixed    | Custom domain and wildcard SSL                                       |

**Cost moat.** The cost of serving an additional family is near zero; per-family economics improve with every paid family.

05 • Revenue Streams

| CONSUMER         | PRICE              | INCLUDES                               |
|------------------|--------------------|----------------------------------------|
| Household (Free) | \$0                | 3 members, limited features            |
| Family           | \$7.99 / \$69 yr   | Unlimited members, all core + Maths    |
| Family Pro       | \$12.99 / \$109 yr | + Logic, World Flags, custom subdomain |

| ENTERPRISE          | ANNUAL  | INCLUDES                    |
|---------------------|---------|-----------------------------|
| Up to 20 families   | \$299   | Branded subdomain + logo    |
| 21 to 100 families  | \$999   | + admin tools, member roles |
| 101 to 500 families | \$1,999 | + reporting, bulk invites   |
| 501+ families       | \$3,499 | + dedicated support, SSO    |

**24-month target.** 5,000+ paid families, 30+ partner organisations, \$720k+ annual recurring revenue. An 8-12× revenue multiple implies a \$5.7M-\$8.6M acquisition value range.
