

Family Hub • What's Shipped

Everything a family can do on staging today, in plain words. One card per capability, with who it's for and the ticket that shipped it.

Last updated 2026-08-03 • current through FHS-548

This page is refreshed on every merge that changes what users can see or do (rule in CLAUDE.md).
App: fhapp.up.railway.app

Getting started signup → first dashboard

Public site

Welcome, Pricing (Free / Family \$7.99 / Family Pro \$12.99), About, and full Legal pages (Privacy, Children & Parents, Terms, Cookies) with a shared header/footer.

Create your family

Sign up with your family's own web address (like /t/khan-family). Passwordless: email magic link or Google. Expired/used links get a clear error screen.

Sarah

FHS-331

Onboarding wizard

Add members with roles and kids' ages (child vs teen), timezone and currency auto-detected, starter habits and rewards pre-seeded, adult invites emailed in one go.

Sarah

FHS-487

Parent dashboard the daily driver

Six tabs

Today, Meals (week planner + snacks), Calendar, Assignments, Noticeboard (emoji notes), Tasks (assign, filter by member, mark done). Getting-started guide card for new families.

Sarah

Yusuf

Calendar that travels

Events and repeating events, plus a private subscribe link that pushes the family calendar into Google, Apple or Outlook. Admin can rotate a leaked link.

Sarah

calendar-sync

Change email, safely

Self-serve change-email flow with a confirmation screen, so an account never gets locked to a dead address.

any adult

FHS-510

Family management people, roles, safety

Manage Family

Grown-ups (email sign-in) and Kids (PIN sign-in) in one screen: invite adults, add kids without an email, set/reset 4-digit PINs, admin toggle (last admin protected), remove members.

Sarah

FHS-513

Real-family roles

Admin / adult / teen / child / guest with a full privilege matrix. Kids can never reach parent settings; sensitive powers (money, members, week close) are admin-only.

everyone

FHS-515

Built for real households

Twins/triplets without data errors, blended families with 3+ parents, grandparents and nannies as adults or guests, kids who claim a login later keeping their history.

everyone

ADR 0009

Reward economy chores → money skills

Family-tuned economy

Each family sets what a sticker is worth (per-child override possible). Habit pay boosts (2x/3x/5x), optional skip penalty (never below zero, fully audited), pocket money.

Sarah

FHS-290

Invest & grow

Parents invest a child's stickers into a habit with a growth multiplier: the habit pays more AND the invested value grows each completed day. Compounding, taught by chores.

Sarah

kids

FHS-534

Admin Panel

Every child's balances at a glance, quick actions (claim, cash out, save, invest, withdraw), week history with a full audit trail, week close and reopen that restores money exactly.

Sarah

FHS-308

Kid dashboard

Tap your avatar, enter your PIN (lockout after wrong tries). My World: weekly habit tracker, stickers, weekly account (earned/saved/invested), money skills, end-of-week recap.

kids

teens

FHS-368

Reward shop

Kids browse rewards and send requests; parents approve and redeem at the family's rates.

kids

Sarah

FHS-517

Learn (kid-only)

Logic (patterns, odd-one-out, if-then, sorting × 3 difficulties), Maths journey (placement, lessons, times tables, challenges, certificates), World Flags (map, flashcards, quizzes), reading log.

kids

ADR 0017

Per-child view for parents

Child World

One child, whole picture

Open any child's world from the account menu: habits and rewards, meals, calendar, journal, and read-only Learning Insights (progress, needs-help flags, certificates).

Sarah

Yusuf

Week close ceremony

Claim / cash out / save / invest / withdraw dialogs at week end, with money stored to the penny and every action reversible on reopen.

Sarah

ADR 0020

Phone & tablet friendly

Full responsive sweep: 44px finger-sized tap targets, no sideways scrolling, layouts that stack on phones, reduced-motion respected. Locked by automated tests.
