

Break it before our families do.

Family Hub is a private online space for one family.

PARENTS

Run the household in one place: calendar, meals, tasks and notices.

KIDS

Sign in with their own PIN, earn stickers for good habits, then save, spend or invest them.

WHY IT MATTERS

Chores quietly teach money skills, with learning games built in. Private per family; built for real households.

SIGN UP FREE · NO CARD · THIS IS THE TEST SITE

TEST ON

Mobile

Tablet

Laptop

Sarah

THE COORDINATING PARENT · ADMIN

- Runs the family from her phone; sets up everything, invites everyone, configures the reward economy.
- Anything that takes more than a few taps between school runs is a finding.

Yusuf

THE SECOND ADULT · INVITED BY EMAIL

- Uses tasks, calendar and meals daily.
- Must never see admin settings.

Amina

THE TEEN · PIN SIGN-IN

- Runs her own habits and money.
- Too old for anything that feels babyish.

The kids

AGES 5 TO 11 · PIN ON A SHARED TABLET OR PARENT'S PHONE

- Everything must be tappable, readable, safe; parent settings unreachable.
- Not in this beta: billing and community/school features.

Your mission

THREE KINDS OF GAPS

GAP	WHAT TO HUNT FOR
● Usability	Where would Sarah get stuck, hesitate or mis-tap? Anything that works on a laptop but fights you on a phone.
● Validation	Does the idea land? What feels valuable, what feels confusing or pointless? Would you honestly pay \$7.99 a month?
● Functional	Broken flows, dead ends, wrong money maths, empty states, double-taps, back button, expired sign-in links, wrong PINs.

Reporting

KEEP IT SIMPLE · YOUR FORMAT, YOUR CALL

Report however works for you: a shared doc, a sheet, whatever is easiest. Helpful details when you have them: what you did, what you expected, what happened, and a screenshot.
